

The background features a complex, abstract geometric pattern composed of various shades of green (from light to dark) and grey. The shapes are angular and layered, creating a sense of depth and movement. The overall aesthetic is modern and clean.

Exploded

2009 TBEA Creative Bicycles, Parts and Accessories Competition Award.

WELLGO QRD is available for many of our new and existing pedals in every category.

No tools are required and pedals can be removed with a flick of a finger.

The QRD design offers portability and additional security for bicycles when they are parked.

The ability to quickly remove the pedals without any tools save time when storing your bike in limited spaces (e.g. car, closet, box).

Quick Release Device

M250

BODY : Aluminum / ED black or painted
SPINDLE : Cr-Mo
BEARING : DU / Sealed
CLEAT : 98A or Shimano 51 compatible
SIZE : 80 * 61 * 33.5 mm
ORIGIN : Taiwan

FEATURES:

- ① The stainless plate could prevent the scratch from movement.
- ② Stronger spring tension construction offers better connection between pedal and shoes which could also increasing the riding efficient.
- ③ The tension indicator with anti-loose design.

C234

BODY : Aluminum 6061 extruded / Anodized

Tension indicator

Stainless plate "could prevent the scratch from movement".

FEATURES:

- * One piece body forming with the stainless plate providing better smoothing and prevent to scratch from movement.
- * Wider and larger step surface makes the step more comfortable.
- * Using the ultra light weight Engineering Plastics for pedal body.
- * Using 3 bearings for better function and easy for replacement and maintenance.
- * With the tension indicator with anti-loose design.

POSI-R168

WELLGO first innovates
Auto Reset Positioner

By using the magnet element, to control the clipless step entry side to the position whatever which angle the user wants to set.

standard

positioner

By this positioner, the user could be easily to clip the shoes onto the pedal without looking at the pedal and reduce the injury for missing the engagement.

REFLECTOR

RR1-5

BOLT TYPE

Bolt-on reflector set for
standard MTB pedals.
25 g/pr

SNAP ON

Snap-on reflector set.

LONG SNAP ON

Extra-long snap-on
reflector set.

How to use 98A Reflector platform

98A-2 (60 g/pr)

Reflector for pedal
715 · 801 · 823 · M19 · M717 · M919 · MGS

98A-3 (60 g/pr)

Reflector for pedal
M094 · M18 · W01 · XMF3

1

Use a 3mm hexagonal
wrench to adjust the spring tension to the
weakest position.

2

First, insert (A) point of the reflector
platform into the front side of the
pedal claw.

3

Use a straight (flat) screwdriver to
push the claw back for an easier
access to the reflector platform.

4

Once the reflector platforms are
installed to the pedal, please
adjust the spring tension to
fit your need.
